

9th GERIATRICS and GERONTOLOGY COURSE May 11-14, 2026-Ankara-Online

The 9th Geriatrics and Gerontology Course, organized in collaboration between the Turkish Geriatrics Society and the International Institute on Ageing, was successfully conducted.

Bringing together national and international researchers and experts, the course offered an advanced and multidisciplinary program addressing the scientific, clinical, social, and ethical dimensions of ageing. In this respect, the course served as a distinctive academic platform for professionals in the health and social sectors, researchers, and policymakers to deepen their knowledge, engage with global perspectives, and contribute to the promotion of healthy and active ageing.

Within the framework of the course, instructors from diverse professional backgrounds delivered lectures that contributed to broadening the perspectives of participants representing a wide range of disciplines.
